Validating Template Tables
Viewing the Table

If your imported template table has been marked as 'Invalid', first thing to do is to view the table to see the validation errors. To do this, either click on the three dots side menu and select 'View Table' or simply double-click the table listing in the file manager.

Data Submission Portal

Create data submissions by importing pre-made tables or uploading files. Imported pre-made tables can be viewed by double clicking the file or selecting View File from the file menu. Uploaded files can only be directly submitted and are not viewable on the platform. Use Archive Tab to View your file archive or export your database. View the dashboards for further insights from your data.

Validating Template Tables
Re-Upload File

After you have fixed the listed errors, you can click the 'Upload/Re-Upload' button in the top right of your screen to upload the file again for validation.
On the next page is the full guide on correct values to use for Romaine Test and Learn data template.

Upload File

Upload / Re-upload operation will remove all of the existing data from the table before replacing it with the uploaded data. Proceed with this operation?

> ⓘ **Table Type**
> You are Re-Importing a table type **TissueTesting**. Use the existing table as a template for editing before Re-Importing. You can download the existing table by clicking File > Download.

Validating Template Tables
Guide to Using Correct Values

Template Column	Correct Value Guidelines
Sampling Stage	Allowed Values {'pre-harvest', 'post-harvest' }
Acres Sampled	When Sampling Stage is PreHarvest decimal values allowed. Negative values not allowed.
Cartons Sampled	When the Sampling Stage is Post Harvest. Integer values. Negative values not allowed.
Packing Style	When the Sampling Stage is Post Harvest. {'romaine', 'romaine hearts', 'top and tail'}
Sampling Region	{'Region 1','Region 2','Region 3'}
Sample Date (MM/DD/YYYY)	Format needs to be fixed to MM/DD/YYYY
Samples Mass	Non Zero Numeric value only
# of Grab Samples	Non Zero Numeric value greater than 60
Out of the below Four types of test at least one must be completed.	
STEC Result	{'cultural negative', 'cultural positive', 'molecular negative', 'molecular positive'}
EHEC Result	{'cultural negative', 'cultural positive', 'molecular negative', 'molecular positive'}
E. coli O157:H7 Result	{'cultural negative', 'cultural positive', 'molecular negative', 'molecular positive'}
Salmonella Result	{'cultural negative', 'cultural positive', 'molecular negative', 'molecular positive'}
